

2023-24

ANNUAL REPORT

journey towards peace and non violence

SEBA JAGAT

At-Burat, Po-M.Rampur, Kalahandi, Odisha, 766102, E.mail : sebajagat@gmail.com

Message from Secretary

Dear Friends,

It is my pleasure to present Seba Jagat's activities and achievements for the year 2023-24. This year has been an incredible journey, one where challenges became stepping stones toward progress, reaffirming our dedication to the communities we serve. Together, through collaboration and determination, we made our goals into reality, bringing meaningful change into the lives we work with.

Our efforts remained centered on strengthening the economy, improving livelihoods, and advancing healthcare services, with a special emphasis on nurturing health-seeking behaviors. We also worked to ensure continued education and nutrition for children in vulnerable areas, empowering communities to embrace change for a better future. We focused strengthening women's associations, empowers them to lead in livelihood governance, fostering self-reliance and community-driven development, enhancing collective decision-making and sustainable economic growth. This year's achievements have been made possible by the trust and support of everyone who has stood by us. Despite the complexities in the global context, our resilience and commitment have allowed us to create lasting impact, transforming lives across children, women, youth, and families.

This report provides an in-depth look at our interventions and accomplishments. As we look ahead, our focus will remain on building upon the successes of the past year, while adapting to meet the evolving needs of our communities. We deeply value the feedback and suggestions from our supporters, which continue to guide us toward improving and refining our work.

I extend my sincere gratitude to all our Resource Agencies, District and Block Administrations, Government Departments, Civil Society, Network Partners, Knowledge Partners, Media, Board Members, financial institutions, colleagues, community members, and well-wishers. Your firm support has been integral to our achievements, and your belief in our mission strengthens our resolve to continue this important work.

Satyanarayan Pattanayak
Secretary

About Seba Jagat

Seba Jagat is a voluntary organisation, has been working since 1992. It is registered under Societies Registration Act-1860 , FCR Act-1976, 12 A, 80 G, PAN, EPF, CSR, and TAN.

Vision

Establishing a just, participatory and sustainable society where each individual will live with dignity, self-respect and in harmony with nature.

Mission

Eradication of poverty through a People Centered action with Gandhian approach of development, works as a catalyst to ensure the active participation of poor, tribals, SC and the downtrodden in rural and urban area for their self-liberation from oppressive conditions of ignorance, fear, poverty and exploitation. They must develop their decision-making potential in order to maintain a respectful, healthy, and hassle-free lifestyle in society. While doing so, organisation is to see that the last person in society is not left out.

3.a:Crop Diversification Program in Mega-lift Irrigation (CDP-MLIPs)

The project is implemented in 10 villages of M. Rampur, Narla and Karlamundablock with the objective of

- Diversification from paddy to non-paddy crops with a focus on pulses, oil seeds, and horticultural crops and improving soil health by encouraging the cultivation of crops with high biomass and low chemical input requirements.
- Strengthening CBOs such as FPOs, WSHGs, PPs, and Agri-entrepreneurs in Cluster-based post-harvest, primary processing, value addition, and marketing as well as linking with livestock and fishing

Community awareness, capacity, and mobilization on cropping pattern sustainability and diet diversification and supporting non-paddy crop produce to be included in various government schemes

Improved income in Green Gram+ Maize through Crop Diversification ”

Dumerguda is the one among the village of Damkarlakhunta GP under M. Rampur Block of Kalahandi district, odisha having 122 families. The main occupation of the villagers is Pulses, Millet and Rice. Additionally, they depend on daily wages & collecting minor forest produces, selling directly in local market

They are cultivated the Pulses i.e Black Gram, Green Gram, Horse Gram, Vegetables and rice in their existing land in traditionally basic only in rainy season and what are products they earned it is too difficult to manage their Families. No irrigation facilities in the area so the farmers are depend on rain water for farming.

Looking this kind of problem, towards improvement of income of farmers, the Special Program of Integrated Farming (SPPIF) was begin in this Gram Panchayat and oriented to the Farmers on Crops Diversification, Line Showing method, Cultivation method etc and said to farmers those who are interested to cultivate the Products they are apply for Incentive claim. So 67 Farmers of the Villages are agreed to cultivate the Green gram + Maize in line showing method for the in the year 2023-24

Sri Pratap Patra is one of the farmer of Dumerguda Village. After got the Information of Crop Diversification program. He is interest to Green gram + Maize crop in their land i.e Plot No 4, Khata No ; 101, Total land in the area Is 0.4 Hectors. So he submitted the documents to the Concern CRP of the GP. So the CRP collected their Aadhar Copy, Land records, Bank Account Copy, Farmers ID etc and provided to Block Program Coordinator. After Approved the CDP Farmers List the Farmers are received the Seeds. Pratap also received the 6 kg 400 gram Green gram and 1 Kg 36 gram Maiza from FPO. He is germinated the Crop in 8 :1 Ratio in their land. By the use of Line showing method the plants are gowned properly. And lastly harvested 67 kg green gram and Rs. 6800 money by the selling of Maiza in local markets. Around he earned about from Green gran crop = 67 kg X @ 100 per kg =6700, Total Income =13500/- . After seeds cost deduction he also assist of Rs. 7000 from Govt. of Odisha so he is said that, The Crop diversification process is a good way of pulses crop because we avoid the traditionally ways of cultivation and change the crop which are cultivate in a land in long time and enhance our income by this way

Now they are interested to Cultivate the pulses in this crop Diversification method in regular basic The farmers of the nearest village are also influence in this method and they are demand to add their village in this process. It is possible by the farmers, Agriculture department of Block and Support of staff of the SPPF

LOKNATH 'S JOURNEY IN AQUACULTURE DEVELOPMENT THROUGH SPPIF PROGRAM

In the fiscal year of 2023, Loknath Rana, a proactive villager from Antarla in the Madanpur Gram Panchayat, in M.Rampur Block embarked on an innovative journey in aquaculture, leveraging the support provided by the Special Programme for Promotion of Integrated farming Framework (SPPIF) program with the support of Seba Jagat(FA) and KFPCL(FPO) . This initiative aimed at enhancing the livelihoods of rural farmers through sustainable and integrated aquaculture and related agricultural practices

Loknath Rana, residing in the village of Antarla, had been a small-scale farmer with a keen interest in diversifying his agricultural practices. With limited resources and traditional farming as his primary income source, Loknath sought opportunities for growth and sustainability. The SPPIF program's came as a symbol of hope of hope for him, offering a chance to delve into aquaculture, a field he had little experience in.

Loknath was provided with quality fish fingerlings to stock in his small pond, a venture supported by the SPPIF program in the fiscal year 2022/23. The program's objective was to encourage integrated farming

among rural farmers as a sustainable source of income and nutrition. Loknath's selection was based on

his demonstrated commitment to agricultural innovation and his willingness to adopt new practices

Recognizing the importance of capacity building, the SPPIF program facilitated multiple training sessions on fish cultivation techniques, pond management, and sustainable fish farming practices. Loknath participated eagerly in these sessions, acquiring knowledge and skills critical for successful aquaculture.

Loknath's dedication and the application of best practices learned from the training bore fruit within the year. He successfully harvested 125 kg of fish, which he sold at a competitive rate of Rs 200/kg and earned Rs 25,000.00. This achievement not only marked a significant milestone in his journey into aquaculture but also showcased the potential for financial success through dedication and the application of sustainable practices.

In recognition of his successful venture into fish farming and his role as a model for sustainable agricultural practices in the community, the SPPIF program decided to further support LoknathRana in the fiscal year 2023/24. This time, he was provided with Indigenous Chicken Production Units and Trellises, aiming to diversify his agricultural activities further and enhance his income sources.

LoknathRana's journey from a traditional farmer to a successful agriculturist underlines the transformative potential of targeted programs like the SPPIF. His achievements have not only improved his family's livelihood but also served as a testament to the effectiveness of integrating sustainable practices in agriculture. Furthermore, his story inspires other farmers in the community to explore aquaculture and other diversified farming activities as viable options for income generation and sustainability

”LoknathRana's case study is a shining example of how dedicated individuals, when supported by thoughtful and well-implemented programs, can achieve remarkable success in sustainable agriculture. It highlights the importance of training, continuous support, and the willingness of farmers to embrace new technologies and practices. As the SPPIF program continues to support rural farmers, stories like Loknath'sis becoming the norm rather than the exception, leading to a more sustainable and prosperous agricultural sector.

3.c: SPECIAL PROGRAMME FOR THE PROMOTION OF MILLETS IN TRIBAL AREAS

Special programme for the promotion of millet in M. Rampur block is a flagship initiative of Government of Odisha. The programme aims comprehensive revival of millets in farms and plates to promote climate resilient farming and contribute to addressing micronutrient deficiency with improving livelihoods of vulnerable farmers in Rain fed Areas. The programme is implemented in 56 village of M.rampur Block with 1000 household.

The objectives include:

1. Increasing household consumption of millets
 2. Revalorization of millet food cultures in urban and rural areas
 3. Conservation and promotion of millet land
 4. Promotion of post-harvest and primary processing enterprises on millets.
 5. Improving productivity of millets-based crop systems.
- Facilitating the millet markets

Out Come

- Created 276 no of Awareness Campaign in 69 Villages in about production, Health benefits , consumption at Household Level and its marketing of of Millets,
- Participated 20 women farmers at 2 District level Special Programme and participated
- Promotion of local, High-yield varieties through Seeds Production.
- 20 Farmers are participated in 3 Residential training on system of millet intensification (SMI) to increase the production, Land Preparation, Selection of seed, Seed Rate for SMI, Seed Treatment, Raising of Seed Bed, Transplanting, Weeding system Etc.
- Organized the 4 Nos. . for CRP and progressive farmers training and discussed about the agronomic practices like four steps of farming.
- Organized 3 Food Festivals in project location where 160 participants participated and showed 50 types of dishes from millet. The SHG members explained the cultivation of millet, their motivation, its nutritional values, and how millet is helping them earn money
- Organized 6 program on the occasion of International year of the millet -2023 and created awareness among the students, grassroots service provider and farmers and others.
- 3 Harvest Festival organized at operational area about create awareness about Millet .

3.d: Orchard Plantation Program at Keonjhar District

The Orchard Plantation program began at Ghatagaon Block from Aug-23 by the support of District Mineral Foundation and Horticulture department of the District

Basic points and activities done in this period

1. Beneficiary and Area Selection

222 farmers selected for orchard plantation from 8 Gram Panchayats of Ghatagaon Block by door to door visit and arranged Village level group meetings in the presence of local person PRI members and Farmers and discussed about the Project , Activities , support of farmers in this Orchard Plantation Program. .

2. Base line survey ; As per the target we have selected beneficiaries for achieve at 100-hectares land for orchard plantation for 1st year . Accordingly, our team focused on following steps-

- Selection of Beneficiary and area by organize the group discussion, village level meeting and individual follow up.
- Store the basic information in format
- Survey on DMF Link
- Document collection (Aadhar card, Ration Card, ROR, Bank Passbook, Job Card and Passport photo copy etc.)
- Geo tagging – land verify on Bhuekh and Bhunaksha

e1. Identified Patch Verification

Patch and document verification by technical expert and programme manager to ensure suitable land for orchard plantation. Verified and submitted 109.454 hectares of land belonging 14 patches from 12 villages for plantation.

Final patch verified by DDH, Keonjhar and AHO, Ghatagaon Block. Visited 12 numbers of villages from 8 numbers of Gram Panchayats and verified 14 numbers of patches. At the end of the verification finally we submitted 109.454 hectare of document to AHO.
